

About the Foundation: Mission and Programs

Young America's Foundation's Mission

Young America's Foundation is the principal outreach organization of the Conservative Movement, committed to ensuring that increasing numbers of young Americans understand and are inspired by the ideas of individual freedom, a strong national defense, free enterprise, and traditional values.

We inspire millions of young people with conservative ideas via breakthrough conferences and seminars, campus lectures, activism initiatives, internships, and educational programs across the country—including the Reagan Ranch, the National Journalism Center, the Center for Entrepreneurship & Free Enterprise, and Young Americans for Freedom.

Young America's Foundation preserves the Reagan Ranch, Ronald Reagan's home of 25 years and only private residence during his administration, as a premier presidential property and site to inspire America's future leaders and teach them about freedom, hard work, and personal responsibility—values President Reagan embodied.

The National Journalism Center trains truth-seeking journalists in the skills of accurate journalism and reporting through prestigious media internships and classroom instruction featuring leading journalists and experts.

Young America's Foundation's Center for Entrepreneurship & Free Enterprise educates and inspires young people to champion free enterprise principles.

Young Americans for Freedom chapters provide young conservatives with unmatched resources, training, and activism initiatives to advance freedom nationwide.

The Reagan Ranch, preserved and protected as it was when the Reagans occupied it, passes on President Reagan's ideas and lasting accomplishments to future generations.

Host a Campus Lecture

Young America's Foundation is the premier organization giving students the opportunity to host prominent leaders of the Conservative Movement through the largest campus lecture program in the country. We offer more than 70 conservative speakers from which to choose, including those highlighted above.

Regardless of your budget or experience, Young America's Foundation will walk you through the entire process. Many students find that organizing a speaking event is one of the most rewarding experiences of their high school and college careers! Contact Patrick Coyle at 800-USA-1776 or pcoyale@yaf.org to book your speaker, or browse YAF's speaker list at yaf.org/speakers.

Challenge the Left This Year!

Boldly advance conservatism by hosting activism initiatives at your school!. *How Universities Violate Your Free Speech* and *How to Host a Breakthrough Conservative Speaking Event*, both available for free at yaf.org, are pamphlets explaining how to adopt the Ronald Reagan model of activism. You can stand up to the Left on campus in the same way Reagan challenged communism and won.

YAF offers breakthrough activism projects and resources to help you advance conservative ideas throughout the school year. Examples include:

FEBRUARY: Fight for the Unborn

Defend the constitutional right to life for the unborn, and challenge students on your campus to answer the question, "When does

life begin?" Bust the myth that a fetus is "only a clump of cells" with scientific data, and display the humanity of the unborn.

MARCH: Liberal March Madness

Your club can dedicate a week to highlighting the outrageous statements made by leftist leaders. Arrange a March Madness-style bracket featuring the current radical leftists, and have your peers vote for the most shocking.

APRIL: GPA Redistribution Video

Explore liberal hypocrisy through this unique initiative representing socialist economies. Film your fellow students' reactions when you ask them to pledge their support to grant your school's administration the power of GPA redistribution to support their underachieving peers.

SEPTEMBER: 9/11: Never Forget Project

Each year, Young America's Foundation helps students across the country remember those murdered by radical Islamic terrorists on September 11, 2001. The Foundation will provide you with information and resources to honor the victims through a moving display of nearly 3,000 American flags.

OCTOBER: No More Che Day

Don't let the Left paint the false narrative that Che Guevara is a hero. Use the anniversary of Che's death on October 9 to educate your campus community about this communist and mass murderer's atrocities.

NOVEMBER: Freedom Week

Highlight the triumph of freedom over tyranny by celebrating the anniversary of the fall of the Berlin Wall on November 9, 1989. Honor freedom through various initiatives such as building and tearing down a mock Berlin Wall, showing a conservative film on campus, and writing thank you letters to veterans to celebrate Veterans Day.

"I've noticed that everyone who is for abortion has already been born."

Start a Young Americans for Freedom Chapter at Your High School or College

If you want to change your campus and grow the Conservative Movement at your school, then you need to start a Young Americans for Freedom (YAF) chapter. At YAF's September 11, 1960 founding, young conservatives met at the home of William F. Buckley, Jr. and crafted YAF's founding document—the Sharon Statement.

Today, YAF is a nationwide chapter-based youth organization dedicated to spreading the ideas of limited government, individual freedom, free enterprise, traditional values, and a strong national defense. Members receive resources, training, financial assistance, and logistical help to proactively change their schools.

YAF chapters can be found on hundreds of high school and college campuses nationwide!

To learn more about starting a YAF chapter, contact chapterservices@yaf.org or sign up at yaf.org.

“Remember your very title—You are Young Americans for Freedom. That is your mission above all others. You are most important in this particular moment of history, because so many of your peers have listened to false prophets and demagogues.”

— President Ronald Reagan, Honorary YAF National Chairman, 1962 to 2004

President Ronald Reagan's Boyhood Home in Dixon, Illinois

Growing up in Dixon, Illinois—in a modest home built in 1891—was an influential experience for Ronald Reagan. It was there, in the 1920s, that he developed the values that would guide the rest of his life.

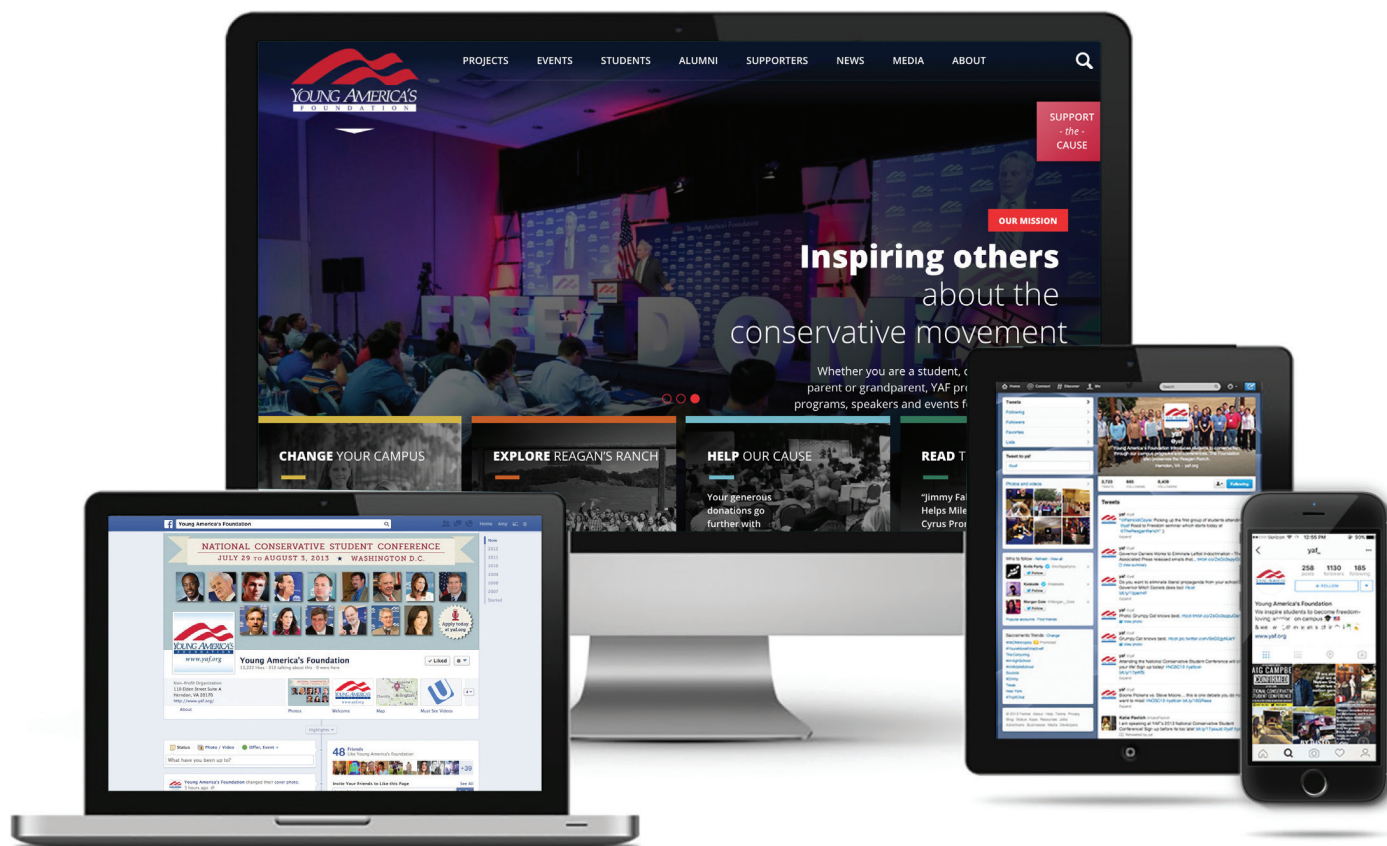

As Reagan said of his hometown, “All of us have to have a place we go back to. Dixon is that place for me. There was the life that has shaped my body and mind for all the years to come.”

As radical leftists and educational institutions across the country seek to erase America's history by tearing down statues of figures including George Washington, Thomas Jefferson, and Abraham Lincoln, YAF is determined to preserve the ideas and accomplishments of those who advanced freedom for future generations.

In Dixon, students will be able to connect with Reagan in his formative years and gain appreciation for his earnest belief that “there is a flickering spark in us all which, if struck at just the right age...can light the rest of our lives.”

YAF is ensuring that Ronald Reagan's boyhood home will be preserved for future generations.

For more information regarding YAF's preservation of President Ronald Reagan's boyhood home, please call our national headquarters at 800-USA-1776, or visit yaf.org.

Begin Your Career in The Conservative Movement

Young America's Foundation's internship program provides useful and effective training for student leaders preparing for a career in the Conservative Movement.

Students selected to participate in the highly-competitive program receive unparalleled educational opportunities and benefits.

Young America's Foundation's interns attend YAF's signature conferences and seminars, free of charge. They hear from professors, Nobel Laureates, acclaimed authors, public policy analysts, and other dynamic speakers who help deepen their understanding of policy matters involving individual freedom, a strong national defense, free enterprise, and traditional values.

Interns have the exclusive opportunity to introduce guest speakers, often before a live national audience, at these programs. This memorable experience provides a once-in-a-lifetime opportunity for student leaders to develop and deliver a short public address. In addition to participating in conferences and seminars, interns learn invaluable skills working under the direction of our office staff.

Our experienced staff mentors interns in a number of areas, including policy research, analysis, and writing. We devote considerable resources to helping students improve their skills in these areas that employers often report are lacking in prospective hires.

In most cases, interns are provided with a monthly stipend but must find their own housing and have access to a car.

"Interning at Young America's Foundation made me realize in what direction I wanted to take the rest of my life. There is no better way to immerse yourself in the heart of the Conservative Movement. My internship took my passion for activism and turned it into a career."
